DETAILED ACTION

Priority

Acknowledge is made of applicants' claim for foreign priority base on an application P2003-048614 filed in Japan on 02/26/2003.

It is noted that Applicants have filled a certified copy of said application as required by U.S.C 119, which papers have been placed of record in the file.

*Election/Restriction*

Examiner confirms that Applicants elected to prosecute Claims 8-10.

Because Applicant did not distinctly and specifically point out the supposed error in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Applicants have the right to file a divisional, continuation or continuation-in-part application covering the subject matter of the non-elected claims.

Examiner suggests applicant to submit a copy of the documents mentioned in the specification, non-patent document 1 and no-patent document 2 (pages 3-4), and these documents should be filed as IDS.

*Claim Rejections*

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 8-10 are rejected under 35 USC 102 (e) as being anticipated by Takahashi et al., U.S. Patent No. 6,870,718, hereafter "Takahashi".

Regarding claim 8, Takahashi discloses a magnetic memory device (see Figs. 1-20, Cols. 1-11) comprising a magnetic memory element 105 (fig. 1) which stores data utilizing spin momentum transfer switching and which is formed in a ring-form (5-25, Col. 6; Cols. 11-12; 1901, fig. 19), an electrode connected to a readout element for reading data stored in the magnetic memory element (abstract), a bit line 2001 on the electrode, and the magnetic memory element comprises a magnetic layer, nonmagnetic layer, and a magnetic layer and connected to both electrode and bit line (25-43, Col.6; figs. 2, 9, 20).

Regarding claim 9, Takahashi discloses the magnetic memory element comprises a magnetic layer, a nonmagnetic conducting film, and a magnetic film (lines 25-36, Col. 6; Cols. 5-10).

Regarding claim 10, Takahashi discloses the magnetic memory element comprises a magnetic layer, a nonmagnetic insulating film, and a magnetic film (lines 36-43, Col. 6; Cols. 5-10).

The prior art (listed in PTO-892) made of record and not relied upon is considered pertinent to applicant's disclosure.

If Applicants are aware of better art than that which has been cited, they are required to call such to attention of the examiner.

When responding to the office action, Applicants' are advice to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist the examiner to locate the appropriate paragraphs.

A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the day of this letter. Failure to respond within the period for response will cause the application to become abandoned (see M.P.E.P 710.02(b)).

*Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thao P. Le whose telephone number is 571-272-1785. The examiner can normally be reached on M-T (7-6).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on 571-272-1787. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
